

Adalberto Alfonso Jr.

November 10, 1943 - August 1, 2020

Adalberto Alfonso, Jr., Jupiter, Florida, has passed away from COVID at the age of 76, after several years of suffering from Dementia/Alzheimer's. Al, was born in Cuba and was a dynamic man that was also a great example of the American Dream.

He was an accomplished engineer that retired after 40 years of dedicated service to FPL and NextEra Energy Resources, as Vice President of Distribution at the age of 67. He received several recognitions throughout his career. An avid reader and forever student, Al earned several degrees throughout his career. He was proud of all his alma maters and an active alumni of each which included University of Miami and FIU.

“ *I will always remember Mr. Al as my Dad and he will always hold that special place in my heart that God created specifically for him. He will always be missed and remembered by those he genuinely supported throughout their careers at FPL. See you later Mr. Al and yes I will continue learning and reading "everything" I can get my hands on. Loved you then, now, and forever more.*
