“ *Carroll was my brother. It was his determination to obtain a college education that inspired me to get one. His excellent knowledge of civil engineering and friendly personality, contributed to his very successful Taylor Engineering firm. May he rest in peace with our mother and father. Leon*

Leon R.. Taylor - Leesburg, FL - Brother - February 08, 2013 at 12:00 AM

“ *Carroll was my brother in law, but far more than that he was of my best friends. Carroll was unique. He had a caring manner and always remembered special matters about the other person.*

*Every thing Carroll took his hand to he did well. He was an outstanding civil engineer, well appreciated in engineering circles for excellent work with bridges, buildings and beyond. He gave significantly to his community, college and more.*

*Carroll will be sorely missed.*

William J McGuckin - Wyndmoor, PA - Brother in Law - February 02, 2013 at 12:00 AM

“ *Carroll enriched our lives immeasurably in numerous ways. May he rest in peace.*

“ I knew both Joan and Carroll when they lived in Auburn. They were active in the life of the city, and were good friends to many. Joan and I were part of a Sewing Group that met twice a month at someone's home-- and we really did sew!-- and talk, of course. I knew Joan better but both were known for being gracious and kind to all.

“ I so enjoyed seeing Carroll come in to talk with me about his prized toyota tercel as I was employed at Emerson Toyota in Auburn, Maine for many years. He was a great customer who always knew what he wanted and I respected his friendship as he respected my knowledge of his automotive needs. So long Carroll you will be missed!
