“ Friend Jeff and I initially entered into a business situation ie tenant but in time we became great friends. I didn't realize how much I loved him. He is missed so much it hurts. When I found him lying on the floor dead it was a shock and something that I shall never forget. I hurt inside he was so alive with life just days before. His smile could light up a room. He and jess and I spent many times together and it was such a pleasure and wonderful of them to bring their warmth to my life. May god be with you Jeff for he knows what a good person you were. Good bye My friend. Tony Jackson
