“ *My first memory of John was when Dana brought me home to meet his family... John walked through the door coming home from work took one look at me and yelled at Dana, "You bring a Protestant in my my house?" I was basically mortified. I was scared of my own shadow in those days. Then John wrapped me in a bear hug and said welcome, but never be late for dinner in my house.*

“ *I always smile when I remember John at Greg's wedding. As we were headed to the rest rooms John was bemoaning using his cane. He reminded me that he was only "pushing 90"! Then as we approached the men's room, he raised his cane to move the older man in front of us out of the way while telling him "this is all this thing is good for". Loved that John!*
