“ Larry always had a warm heart and a good attitude about life. I will miss his smile and the way he cares about people. He was and still is very special to so many of us. I still can't believe that He is not with us anymore. He has done so many good things in this life. He doesn't care much about the material things that a lot of people care about. From what I know of Larry, he is a guy who will always be willing to help anyone with anything. He was a very responsible man. He always take good care of the people that are around him. He was so great at what he did. He was definitely an air conditioning expert. He knew the ins and outs of this profession. If you ever have any problems with your AC. Larry would be the guy to call. He can do/fix air conditioning in his sleep. He will certainly be missed deeply by those he loves. One thing for sure, we all know that he has a passion for sports especially baseball and football. He knows all about the rules of the game. You can always have a good time being around him because he is a type of guy who likes to include you in to whatever he was doing. He was one of the sweetest men that I will ever get to know in my life. He cares so much about his family especially his immediate family like his son, his mother, his two sisters, his aunts and cousins, and all of us who knew him. It's with a sad heart that I say, "I wish that he would still be here right now." But unfortunately, we all has to face reality. So farewell to one of God's guardian angels. He was a man of faith too. He loves God and were grateful for what he has. May he rest in peace and until we meet again, may God holds him in the palm of His hand. Love you Larry.
