“ I was deeply saddened to learn of your Mother's passing. I sent her a letter when your Dad died, but did not receive a reply. I hope she received it, as it was heartfelt. Your Father was my mentor and my chief; I have always cherished a deep fondness for and gratitude toward both of them for their friendship and support during my training and early career. Our relationship was special and I will always remember how together we cheered the Dolphins to their Superbowl victories in the early '70's. That is when I got to meet you girls. Jim kept me apprised of your progress for years thereafter.

I have been retired for six years. Occasionally, I see Burt Goldstein, who is my neighbor here at Williams Island. We always reminisce fondly about the good old days, and your folks are always included in our musings. Please accept both my condolences and my warmest personal regards.

Fondly, Al Lieber
