

Dr. Michael D. Chidester

August 3, 1956 - May 9, 2025

Dr. Michael David Chidester died unexpectedly at his home on May 9, 2025 in Jupiter, Florida at the age of 68.

Dr. Chidester, known affectionately by his family and patients as “Dr. C”, was born on August 3, 1956 in Memphis, Tennessee to James and Catherine Chidester. After graduating from medical school in 1982, Dr. C relocated to South Florida. He started his medical practice in the mid-1980’s and became a career-long anchor in our local medical community, working at St. Mary’s Medical Center for over 40 years.

Shortly after opening his practice, Dr. Chidester was blessed with his first daughter, Shea. Six years later, he welcomed his only son, Gavin. And after marrying his second wife, Dr. C was again blessed with a second “bonus” daughter, Natasha. He always taught his children to be strong, independent and a little sarcastic while pursuing their dreams and goals. Maintaining close relationships with his children was always a priority, even after Gavin’s move to Japan following his high school graduation.

Dr. Chidester was a dedicated doctor who always cared about his patients and did everything within his power to ensure they were well taken care of. In his free time, Dr. C enjoyed scuba diving, woodworking and loved spending time with his children and his new grandson. He also enjoyed spending time

at sporting events, including hockey and soccer. In fact, the entire family were hockey enthusiasts- they enjoyed going to games together and had season tickets up until Gavin graduated from high school. Dr. C was looking forward to enjoying the Men's World Cup, next year.

Dr. Chidester is survived by his beloved children, Shea Peterson (Scotty); Gavin Gould-Chidester (Yuu); and Natasha Schauer (Jason); as well as, his cherished grandchildren, Timothy; Raegan; Bella and Silas.

A Visitation will be held at Taylor & Modeen Funeral Home, in Jupiter, FL, on Saturday, May 17th from 2:00pm-5:00pm. The family welcomes all to attend and Celebrate the Life and Memory of Dr. Chidester.

In lieu of flowers, the family suggests donations in Dr. Chidester's Memory to St. Jude Children's Research Hospital in Memphis, Tennessee, Dr. C's hometown (<https://www.stjude.org/donate>).

“ *Dr. Chidester was my grandmother's doctor and then later became my doctor. He was the coolest. Very down to earth and had a great sense of humor. I just heard of his passing from my mother. I was sooo shocked. I know that we all have an expiration date, but he had a spirit that will forever remain with everyone he has encountered. No other physician will ever make me like home the way his practice did. Rest in peace. You are loved!!!*

“ Dr Chidester was my doctor while I lived in FL. I just now found out he passed away. He was the BEST doctor I had still to this day. He is so dearly missed and I'll be forever grateful for the care he provided me.

“ Wow. This makes me so sad. I took care of my mother as she aged and Dr. Chidester (and his team) were a true gift. They made miracles happen through so many ways.... Working in healthcare and on hospital floors one could always reach out to Dr. Chidester for support and guidance.

This was a complete shock too me this morning 12/08/2025. As I entered the building where his practice had been located, I gave thought to stopping by his office on my way out when I finished my visit with another doctor. As I waited for the elevator, a lady with a desk chair came up and also waited for the elevator. When we entered the elevator, I noticed her scrubs and asked her what kind of doctor she was. She told me Primary Care and I asked did she know Dr. Chidester. She said yes and informed me that he had passed away a few months ago. I was shocked. I had been a patient of his since his Flagler Drive days and was hurt to hear of his passing. My sincere condolences to his family, staff, especially Laura. Dr. C was always pleasant and always gave me hug prior to my departure. May he rest in eternal peace. 💔

“ I am so saddened to just now learn of Dr. Chidesters passing. I was a patient for only a year or so but loved this guy because he always made me smile and feel assured I was well. He was more like talking to your buddy who was a doctor and I actually looked forward to my visits to his office. It was kinda funny to see him driving around town in that old car of his. He was a very down to earth person with a great sense of humor and will be deeply missed. My prayers go out to his family.

“ Reading through these tributes, I am not surprised by the number of patients who had been under the care of Michael Chidester for years. My first visit was in 1995... and my two daughters, now in their 30's, saw him as their first 'doctor' when they aged out of their pediatrician. My sincerest condolences to the Chidester family. I have never had a doctor like him, who always took time to answer questions (I could ask him anything under the sun to do with medicine,) give me his honest opinions - in my favor or not - and enable me to be properly guided to good health for many years. I enjoyed his down-to-earth manner and sense of humor, and I gathered up the means to continue with him when he transitioned to offering concierge services. I also want to acknowledge Laura, who has been with his practice as long as I've been going there, as an awesome professional in her role. And Day, another attentive staff member who was so detail-oriented, as was the entire practice. This will be a difficult task in the coming weeks to find any primary physician like Dr. Chidester. RIP, Sir, and thank you for your years of service.

“ Dr. Mike was a brilliant, humble soul who made everyone’s world better. In our D&D games, he brought pure joy with characters like El Nacho, a monk wrestler who’d grapple foes, leap off heights, and drop them, taking no fall damage himself. He’d handicap himself and spend a round donning his costume for laughs, knowing his build was overpowered. His “Wall of Bacon” strategy, summoning a swarm of angry pigs to clog the battlefield and limit our opponent’s movement, was great fun - silly, yet effective. As a doctor, Dr. Mike listened deeply, cared genuinely, and went well beyond expectations in a rushed system, saving lives with compassion. He always has time to listen and never rushed his patients, a simple quality that is very rare in our modern system. A veteran who served with honor, he carried that duty into everything. He was the best of us, lifting others quietly with humor, grace and dignity. Rest well, Dr. Mike.

“ My heart is broken by the loss of Dr. “C”. Being a nurse, I respected his knowledge and his bedside manner when dealing with patients. He never talked down to people, always listened and made time for you. He could be very serious... but also showed his quirky sense of humor. He will truly be missed by many as a Doctor and a friend.

“ Dr. C was my doctor for 30+ years. Loved his bedside manner and no frills demeanor. He looked like a mad scientist, but what a great doctor he was! Always calm and had the best humor. We were just texting back and forth on May 6th due to my carelessness of accidentally double dosing on my meds! I'm in shock that he's gone. My deepest condolences to his children. We will miss him terribly as a doctor. RIP Dr. C.

“ Dr C Took a gamble and allowed me to do my clinical hours in his office while I was in NP school. He taught me to be empathetic, kind, and to listen. If I did something wrong he stopped me right there to Educate me. Thank you sir for taking the time to care for myself and thousands of others. He also lived a semi soap opera life which I enjoyed. He was a smoker, but a heck of a scuba diver, he shared his office with his ex wife. Yet none of those things bothered him. Great man. You will be truly missed.

“ Dr. Chidester has been my doctor for 13 years ... I just received the news today, I am so saddened to learn of his passing. Dr. Chidester restored my faith without knowing it. Decades ago, I was a victim of a Lung doctor in Connecticut who behaved criminally with me and 3 other female patients. For years after that experience I refused to be seen by a male physician. When I moved to Florida, he was recommended - so I gathered my courage and went in for the visit ... and here we are 13 years later.

Dr. Chidester would always make fun of me when I would come rushing in with my own diagnosis of what I didn't have ... His sense of humor was contagious! He was compassionate, understanding, informative - most of all he truly cared ... I will miss him dearly.

“ I was deeply saddened to learn of Dr. Chidester's passing. He had been my primary care doctor for nearly 14 years. I don't think he ever once used my actual name, rather greeting me with a friendly, "What's up Padre'." I always appreciated his no-nonsense manner and his incredibly dry wit. He was always easy to talk to, and you could tell that he sincerely loved what he did as a physician. You will be missed Michael. Now it is time for you to rest from all the good work you have done in this world.

“ The last time I saw Dr. Chidester, my internist for 30 years we had the best visit ever. As the good doctor walked in he noticed I was reading a book. He asked if it was another one of those "self-help" books. I responded that this one was different sharing passages with him. Next thing I knew he was reading the book with vigor forgetting I was even in the room! LOL! I gifted Dr. Chidester the book GOOD ENERGY by Dr. Casey Means that day.

Sometimes I would give him a hug before I left. Thankfully our last encounter was a loving hug from one friend to another.

I am blessed to have known this remarkable human being who dedicated his life to the lives of other.
