“ *Walt used to mess with her so bad especially working at fair he would knock her cones over while shewould yell at him driving off in his golf cart..i worked with her as well at amphitheatre. One thing I can say is she loved her grandchildren and her kids she would do anything for them .PBSO is gonna miss their main dispatcher lol she would sit on her pbso radio. Walt even told David one day your family are not lawyers they are police it was funny we were laughing. She even joked with me telling me she was a pbso dispatcher. I remember jr took off with her new motorized wheel chair with her in house lol.walt told her watch out hes sneaky. I pray her family will be able to find peace inside ...shelly*

“ *Phyllis was like a mother to me. She took me in when I first moved here 25 years ago. She’s been a big part of my life that whole entire time. We have some crazy times together but you couldn’t help but love her. She loved all her children the same no matter what. She would help anyone in need with no questions asked. I love her so much and I’m praying for the whole family*

“ *In my 34 years of living I’ve never had a world without you in it. I’ve never found it easy to even picture you not being in my life, because it scared me so bad. The slightest thought of losing you was my greatest fear and because of that I always pictured you living forever. I know it’s not realistic or even possible for that matter, but it scared me that bad that I just couldn’t even bare the thought of it. Now, your gone and I just don’t know how to think or what to feel. I’m so lost without you. You’ve been the most amazing mother and I know I never told you that enough. But one thing I know is I never ever forgot to do, was to remind you how much I loved you and how beautiful you are. You had a heart of gold and your love was so pure, I only dreamed that I could love my kids as much as you loved us. Im going to miss you so much, I feel like of piece me is missing. But, I look forward to reuniting with you one day. Please watch over us mommy and please show me signs that you’re here and your watching, and lastly come visit me in my dreams. I just want to spend a little more time With you. I love you mommy.*
