“ *I was stunned when my mom told me that Rachel had died this past spring. I cared for her and Jack very deeply. I had recently sent her a note and received a lovely note and photo back and she seemed her usual happy and caring self. She and Jack were part of the group from Pratt & Whitney Aircraft that moved from Connecticut to Florida so that Jack could join my dad and others working on the SR-71. They had no kids in the beginning but became like an aunt and uncle to me and my brother. Later, Rachel and I created my folks' 25th Anniversary party. And I was present when Monique was born because I was a nurse at the hospital where she was in labor and visited her before going home. My heart breaks for Jack and the kids and their families.
