“ Ralph's father and mine were brothers...our parents moved us from N. Ireland to St. Catharines in 1958 when Ralph and Glenn and my brother Wilmer and twin sister Barbara and I were just kids...we shared many a laugh at family dinners and get togethers but when they moved to California, we lost the connection...only reconnecting unfortunately for funerals. I was devastated when I lost my mother 12 years ago and Ralph,who had already lost his dad by then, called me and truly comforted me with his words...I'll never forget that kindness. He had a wonderful smile and like all of us Vints, loved to laugh...it does my heart good to read all the warm and happy memories he shared with so many...a life well lived. I send my heartfelt condolences to Janis and family and to Aunt Peggy on behalf of his cousins Wilmer, Barbara & Florence.

“ My deepest condolences to Janis and the kids, from the Hacking Family. I am in shock that Ralph is no longer with us, I have known Ralph for a long time and have had the pleasure of traveling with him to some great places. we went to Amsterdam several years ago we arrived in the morning and Ralph suggested we stay awake to offset the time change and jet lag, so we took a 6 hour city tour. we did not see any of the city as we both fell asleep and were woken by the bus driver at the end of the tour. I still chuckle to myself when i think of that. Ralph was a great person that always had everyone, s back. I will miss him.

“ We had a nice jazz band in Hyde Park, Chicago. Ralph put the band together with a bassist from U Chicago (M. Yearly) and us horn players (R, Manns and me) and a guitar player (E VanDuyne). The place was called the Woodlawn Tap on Woodlawn near 55th St. near U Chicago. Every Sat. afternoon (or was it Sunday) we would jam to a crowd of 1 or 2 people. Often Janis would come to hear. It was a lot of fun. Ralph had a place near there that we went to for a party one time. We did a few jobs at Wabtec, in S. Chicago, which was a company party. Ralph gave us a tour of the place, where they manufactured locomotive breaks. That was a good time. My first son was born around then. Ralph told me that "there is no way to describe what it is like to have kids" to someone who has no kids. He just said nothing until the kid was born, waiting to see how I would react to the whole thing. T
