“ Kay, family, and friends,  
What a handsome, striking pose for a charming, likable man. He always made me smile when I ran into him at the college, at the Riviera, or around Palos. You have my sympathy and understanding.

“ Bob's US Army Air Corps photo jumped off the page of today's Southtown Star. It doesn't seem that long ago that Bob brought it in to show us guys in Commercial Forge's engineering department accompanied by his description of himself as a cocky young flyer complete with crushed cap and silk scarf. Bob's pantomime of the way he would put on his flyer's gloves was really funny.

When I started my forging career in 1972 guys like Bob, Chelsea Klein, Irv Scheef, Fred Blaney and Howard Atkinson were running the operation and took responsibility for teaching the next generation of forgers. I owe my career to guys like Bob & Chelsea. A lot of people have come and gone during my 40 years in the workforce but very few have had Bob's charisma and sense of humor.
