“ *Still not able to process this. He is so missed! He was such an amazing man to work with.. Sending love to his boys (who he loved SO much!) & family. I miss his runs during his lunch breaks, or him taking out lizards from the office. He was my go to complain about my Walmart deliver issues. He always stood for what he believed in and for that I will always take that with me. Thank you Dr. Parsons for all of your laughs, smiles, jokes & just being able to have met you!!*

Sending hugs and love! <3

“ ..."the best... Thank you for coffee", those words made me every morning and now having a coffee without having it in my memories is something impossible. It didn't take long to know how kind he was... So passionate about his job and totally in love with his children. Excellent friend, jovial and helpful, always trying to improve everything around him. Now that he is an angel he will take care of his children and loved ones for eternity. God bless you Mr. Timoteo

“ My brother Tim was an amazing man. As a young boy when we lived in Melvindale him and my older brother Jim took on paper routes to help our mom with the bills In junior high school Tim would make tie racks and sell them on the way home from school to help support our family. Tim worked 2 jobs and put himself through medical school at Michigan State. Tim was strong willed and a perfectionist. My brother was an amazing Father to Hunter and Luke and when he spoke of them you knew that he was one proud Dad. When I would come to Fl to visit my mom, sister Robin and Tim and the boys Tim would always make sure we had everything we wanted and if he told me he loved me once he told me multiple times. I have always been proud of my brother Dr. Timothy Parsons and I don't know how to go through this life without him. Tim I will always be here for Mom and your boys. I love you so much and just pray that you knew how much you were loved.

Hi Melissa, I just found out about Tim's passing and wanted to share my condolences. I knew Tim when he was doing his residency in Michigan. He worked evenings and weekends at an urgent care where I also worked, and we had a fun friendship. He then moved to California and I moved to Texas, and we lost touch. A random string of events prompted me to stroll down memory lane and see what he was up to after all this time. I was saddened to read he had passed last year. Even though it's been over 30 years since we last spoke, I still smile at the many fond and funny memories of him - like how annoyed he would get when people wouldn't spell "ophthalmology" correctly. I'm so very sorry for your family's loss.
